

## Countertop Comparison Chart

Countertop	Composition	Heat Resistance	Scratch Resistance	Stain Resistance	Color Choices
<b>Richlite</b>	Composite of Cellulose fiber & phenolic resin	Up to 350 F	Scratch resistant but can scratch Repair w/ Scotch Brite pad	Good stain resistance	7 standard colors
<b>Paperstone</b>	Composite of Recycled paper & 100% Water-based resin	Up to 350 F	Scratch resistant but can scratch Repair w/ light sanding	Good stain resistance	12 standard colors
<b>Squak Mountain Stone</b>	Composite of recycled waste paper, crushed glass, fly ash cement, & iron oxide pigments	Hot objects should not be placed directly on countertop	Fairly scratch resistant	Stain resistant to food and grease spills for up to 24 hrs.	5 standard colors
<b>Eco Cem</b>	Composite of cement strengthened with 20% recycled wood pulp	Up to 500 F	Scratch resistant but can scratch	Fair stain resistance Acidic liquids can stain if not cleaned promptly	5 standard colors
<b>Slatescape</b>	Composite of recycled paper, Portland cement, & fly ash	Up to 500 F	Scratch resistant but can scratch	Affected by acidity (lemon juice, red wine, vinegar)	3 standard colors
<b>Alkemi</b>	Post industrial scrap aluminum and polymeric resins	Up to 126 F	Good scratch resistance	Good stain resistance – Acids will affect if left on for long	12 colors 2 finishes
<b>Eco Terr</b>	Natural stone aggregate materials &/or recycled glass with a cement binder	High heat resistance	Excellent scratch resistance	Highly stain resistant if properly sealed	
<b>Counter Productions</b>	Recycled glass in a cementitious base No polymers or resins	Up to 720 F	Excellent scratch resistance	Highly resistant to stains – high acidic liquids should be cleaned promptly	Made to order
<b>Enviro Glas</b>	Recycled glass & color pigmented epoxy resin	Up to 180 F	Good scratch resistance	Highly resistant to stains	Custom created
<b>Ice Stone</b>	Recycled glass and concrete	Don't set hot pots on because can burn sealer	Good scratch resistance but don't want to scratch off sealer	Sealer applied by installer prevents stains	20 standard colors
<b>Vulcanite</b>	Glazed volcanic lava	Up to 500 F	Medium level scratch resistance (depends on glaze)	Above average stain resistance depends on glaze	20 colors Custom available
